## Our Introduction

### Looking Beyond The Short Term For The Most Sustainable Outcome.

We're a distinctive wealth and investment management firm actively building enduring value for our clients. We actively manage your portfolio to ensure it remains appropriate for the ever-changing conditions in the global economy and financial markets. We have a well-defined investment process, which is fundamental to the service we provide. This process creates a strong yet flexible framework for our investment professionals to work together, sharing ideas and challenging each other's views. It is constantly evolving and we continue to invest in the resources required to ensure it remains robust. We are into real estate arbitrage, gold mining and car accessories in delight to meet your essential investment needs.

We have a dedicated team for clients who want 100% ethical and sustainable investment management. We achieve results by harnessing our extensive investment research resources. Our investment process captures the best thinking of our strategists, analysts and investment managers, which we use to build and manage your portfolio.

Flexible Delivery Model

## WHAT WE DO

Fintech Investment is a leading investment provider to financial market professionals. Our technical strategies cover forex, binary options and crypto. Our market depth and knowledge are attributed to our acquired experience on trading floors of many banking institutions.

Our organisation exists purely to support the people we trade with – the world's more disadvantaged investors. We believe that investment, if organised and regulated properly, can lift the world's poor out of poverty. At Fintech Investment, we push ourselves daily to a limit of breaking point while enjoying ourselves while making profits. Fintech Investment is a registered organization that offers private membership to individuals who wish to invest into Forex Trading, Binary Options, CFDs on stocks, ETFs and Crypto Trading.

### Collaborative

Managing wealth responsibly takes collaboration: with each client, among colleagues and with professional partners. What matters is not who's best but what's best for our clients.

### Resilient

We are not afraid to ask difficult questions or make changes that need to be made. We stand up for what's right, accepting that this can be challenging sometimes.

### Professional

We take our professional responsibilities seriously. We are accountable for what we do: to our clients, to each other and to the future.

## How we Work

### Three Simple Steps

### Working Process

#### Research

Find Sources, evaluate Sources, establish a potential market.

#### Targeting

Breaking a market into segments and outline target goals.

#### Results

Activate market entries with pre-evaluated results and exit points.

# An Investment In Knowledge Pays The Best Interest.

## Ethical Investments

We have a dedicated team for clients who want 100% ethical and sustainable investment management.

## Professional Data Analysis

We have invested in our ability to monitor how your investments perform. Sophisticated, market-leading software enables us do this.

## Business Strategy

Our diversified investment strategy combines different assets and can be one of the best ways to preserve and enhance wealth over the long term.

### Trades & Stock

Our traders engage in market trades conducting extensive research and observation of how financial markets perform at that certain point in time before execution.

### Taxation

As a governance oriented investment firm, we help fund public works and services—and to build and maintain the infrastructures used in our resident country through our prompt tax filings.

### Risk Management

We ensure that returns are satisfactory and consistent with the levels of risk being taken and also have regular peer reviews for investment suitability.

### Corporate Finance

We will actively manage your portfolio to ensure it remains appropriate for the ever-changing conditions in the global economy and financial markets.

## Cryptocurrency Trading

Cryptocurrency Trading is the Forex (Foreign Exchange) of cryptocurrencies. This means, you are able to trade different bitcoin and altcoin normally for USD and BTC. Cryptocurrency Trading is an alternative way to get involved in the Crypto-World! Unlike mining, it doesn't require mining hardware nor investing in bitcoin hyips or bitcoin cloud mining (which always has risk involved in their integrity).

### Why Invest in Cryptocurrencies?

The skyrocketing rise in cryptocurrency value is shaking up the financial markets. Cryptocurrency market was valued at \$500 billion U.S Dollars at the end of 2017. Its value rose over 360% from the beginning of 2017. Cryptocurrencies are known for their rapid price movements, providing potentially high returns on investment.

## Gold Mining

Gold mining is a global business with operations on every continent, except Antarctica, and gold is extracted from mines of widely varying types and scale.

Mines and gold mining operations have become increasingly geographically diverse, far removed from the concentrated supply of four decades or so ago when the vast majority of the world's gold came from South Africa.

China was the largest gold producer in the world in 2016, accounting for around 14% of total annual production. But no one region dominates. Asia as a whole produces 23% of all newly-mined gold. Central and South America produce around 17% of the total, with North America supplying around 16%. Around 19% of production comes from Africa and 14% from the CIS region. See our interactive gold mining map for gold production per country in 2019.

# Certificate

# Loan

Getting a loan doesn't have to be intimidating, with the right lender it can be a simple process. You only need a lender committed to taking the mystery out of the mortgage loan process! At [mapleinvestment.ltd](http://mapleinvestment.ltd), we understand! Our investors want simple facts, honest answers and competitive products.

[fintechinvestment.ltd](http://fintechinvestment.ltd) automatically offers loan services to investors with over \$100,000 investment in our normal [mapleinvestment.ltd](http://mapleinvestment.ltd) packages. Investors over \$100,000 are entitled to loans of \$500,000-1million dollars yearly with 5% paid monthly, or the investor could wish to compound the interest till the time limit, provided all required information and identity of the investor are duly confirmed by the [mapleinvestment.ltd](http://mapleinvestment.ltd) loan board.

## EVERYONE DESERVES A PEACE OF MIND

Invest on Our Retirement Plan today and Enjoy a good old age

For employers, defined contribution retirement plans represent freedom from financial volatility, traditional pension risk, market volatility, and long-term financial uncertainty; however, they also impose new risks and responsibilities on the employer. For employees, defined contributions offer individual control, greater flexibility, and, in an ideal world, access to institutionally priced investments. Secure the future of your finance even after you retire.

## Real Estate

Fintech Investment offers investment options in most major cities for multi-family, office, retail and hospitality properties. The platform gives investors the opportunity to invest as little as \$100,000 in a project.

As an investor, you will receive frequent project updates and financial statements to keep investors informed of the current state of their holdings. The company only partners with experienced developers that have a track record of success, invests in properties in locations with high growth potential, offers investments in major markets with solid fundamentals to avoid potential bubbles and invests in projects that will improve neighborhoods, eventually boosting the properties' overall value. The company offers investors several different asset classes to choose from, including high-rise buildings in Manhattan or single family homes in Phoenix.

## OIL AND GAS

Investors looking for portfolio diversification through sector-specific funds can find multiple opportunities within the energy industry – and more specifically, companies operating in the oil and gas drilling sector. It is necessary to analyze certain metrics to understand a company's level of profitability and make informed investment decisions. One of the measures commonly used to determine a company's profitability is the profit margin.

### Calculating Profit Margin

Investors can analyze a company's profit margin or net profit margin by completing a simple calculation that determines revenues. The profit margin of a company is determined by subtracting total expenses from total sales and then dividing that number by total company sales. This profit margin calculation does not take into account common stock dividends, but does include depreciation, taxes and interest expenses. A company's net profit margin is calculated similarly by subtracting total expenses from total revenue (not sales) and then dividing that number by total revenue. This gives investors deeper insight into how a company is converting its bottom line revenue into profit for shareholders.

## Tools

fintechinvestments.net provides you with the tools you need to operate a productive and profitable business in today's rapidly changing landscape. Your state-of-the-art fintechinvestments.net back office tracks all relevant and essential data so that you know exactly what's happening in your business in real time.
